UNIVERSITI SAINS MALAYSIA

PERPUSTAKAAN  
LIBRARY | Universiti Sains Malaysia

## **SciFinder Scholar™ - Today's academic leader in providing the most accurate and comprehensive chemical and related scientific information**

- Enjoy the intuitive and seamless access SciFinder Scholar provides to the vast amount of information in the CAS and MEDLINE® databases.
- Save valuable time with SciFinder Scholar's unique offering of both journal and patent references linked together in one resource.

## **SciFinder Scholar offers millions of vital scientific data - all linked to the published literature**

- Document references for both journal articles and patents
- Organic and inorganic substances - twice the number of any other source
- Citations
- Structure images and sequences
- Single - and multi-step reactions
- Calculated and experimental properties
- Electronic links to the original research documents
- Commercial suppliers and contact information
- Regulatory status reports from various governmental inventories

## **Content rich enough to satisfy your science programs**

- Explore SciFinder Scholar's extensive content from nearly 9,500 major journals and patents from 50 active patent-issuing authorities around the world.
- Discover life-sciences, medical, pharmaceutical, biogenetic, engineering, material sciences, physics, food sciences, and other non-chemistry research information, updated daily.

## **Here is but a sample of SciFinder Scholar's diverse journal coverage**

- Angewandte Chemie
- Biotechnology and Bioengineering
- Biochemistry
- Cell
- European Journal of Mineralogy
- Immunology
- JAMA, the Journal of the American Medical Association
- Journal of Applied Polymer Science
- Journal of High Energy Physics
- Journal of Organic Chemistry
- Journal of the American Chemical Society
- Lancet
- Macromolecules
- Nature
- New England Journal of Medicine
- Science
- Tetrahedron
