UNIVERSITI SAINS MALAYSIA

**PERPUSTAKAAN
LIBRARY | Universiti Sains Malaysia**

Scopus is the largest abstract and citation database of research literature and quality web sources. It's designed to find the information scientists need. Quick, easy and comprehensive, Scopus provides superior support of the literature research process. Updated daily, Scopus offers.

- **15,000 peer-reviewed journals from more than 4,000 publishers**
 - **over 1200 Open Access journals**
 - **500 conference proceedings**
 - **over 600 trade publications**
 - **200 book series**
- **33 million abstracts**
- **Results from 386 million scientific web pages**
- **22 million patent records from 5 patent offices**
- **Seamless links to full-text articles and other library resources**
- **Innovative tools that give an at-a-glance overview of search results and refine them to the most relevant hits**
- **Alerts to keep you up-to-date on new articles matching your search query, or by favorite author**

Scopus is the easiest way to get to relevant content fast. Tools to sort, refine and quickly identify results help you focus on the outcome of your work. You can spend less time mastering databases and more time on research.

refine your research
