LIBRARY | Universiti Sains Malaysia**

**ScienceDirect** already covers around one quarter of the world's full-text scientific, technical and medical (STM) literature published in 24 fields of science, and continues to deliver new programs of high-quality online content that researchers need for their work. 'Articles in Press' are available to give researchers the advantage of access to articles on average 15 days after they are accepted for publication, before appearance in the print journal.

At this moment in time, ScienceDirect offers over eight million full-text articles from over 2,000 peer-reviewed journals, as well as a growing range of authoritative books, including reference works, handbooks and book series. There are over 50 reference works, over 150 book series titles and over 164 handbooks volumes now online, with at least 10 reference works added each year. In 2007 4,000 ebooks will be added to ScienceDirect. The ScienceDirect books collection covers the core disciplines of life, physical and social sciences and are fully linked with journal articles, giving scientists a broader perspective of their area of study.

The screenshot shows the ScienceDirect website interface. At the top left is the ScienceDirect logo. To the right is a login section with fields for 'User Name' and 'Password', and a 'Remember me' checkbox. Below the logo is a navigation bar with links for Home, Browse, Search, My Settings, Alerts, and Help. A 'Quick Search' section includes a search bar and options for 'All fields', 'Author', 'Journal/book title', 'Volume', 'Issue', and 'Page'. A 'Browse' section shows '9,263,740 Articles' and 'Browse by title' with an alphabetical index. A 'Browse by subject' section lists categories like Physical Sciences and Engineering, Life Sciences, Health Sciences, and Social Sciences and Humanities. A 'Why Register?' section features a 'ScienceDirect Personalizing Research' banner with a 'Register now!' button. A 'Quick Links' section lists 'Favorite Journals / Books' and 'Quick Links in ScienceDirect' (Alerts, Recall Saved Searches, Top-25 articles in my subject area, ScienceDirect Info site) and 'Quick Links on the Web' (Add to my Quick Links, Submit an article, SCOPUS, Scirus, Elsevier, 2collab). A right sidebar contains 'About ScienceDirect', 'Want to know more?', 'ScienceDirect enhancements', 'Find out more about', 'Content on ScienceDirect', and 'Online tutorials'. An orange box at the bottom right contains the following text:
