

# THE NEW ADD-ON SERVICES

Presented by;

- Hasniza Amno
- 13 Disember 2012

# Objectives

1

To introduce the new add-on service/application for USM library (A pilot project to explore new user interaction models with digital collections on electronic devices)

2

To introduce an application of photographic guide to the history of USM Library by using PC/Mobile/Tablet etc.

3

To introduce the application that can deliver the Libraries' Special Collections, digital collection, historical photographs, themes, campus map, interaction with users, pictorial history, important people and etc. with attractive way

# Impact on **USERS**

Updated as  
users walk  
across campus  
(if using  
mobile/tablet)

An excellent example  
of using new  
technology to provide  
methods for people to  
discover and access  
our collections.

**Impact**

An interesting tour through  
Library's past/ present  
,photos/other historical info  
/collections /important people  
by using their  
PC/mobile/tablet.

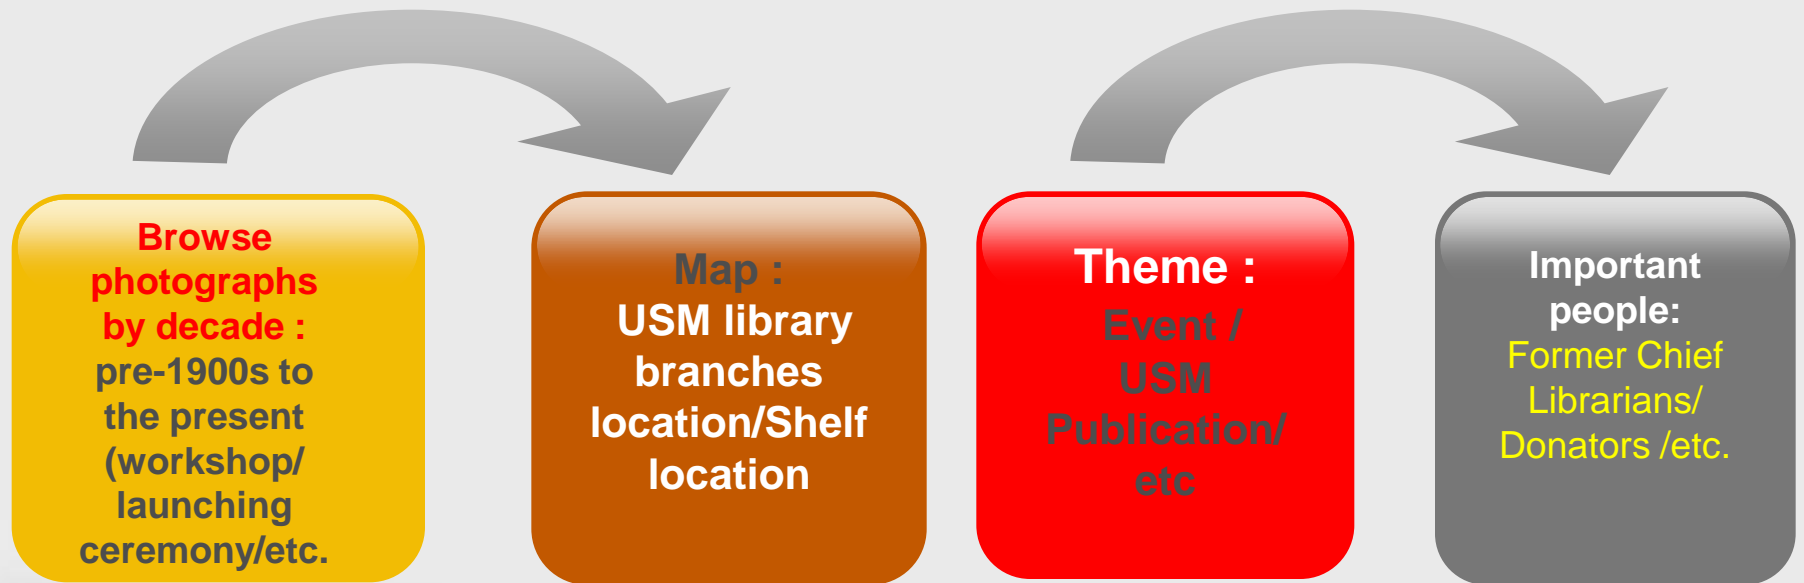

# Impact on **STAFFS**

Encourage staff to contribute more visual type of information

USM will be the first library in Malaysia offering this service

# Examples

# Example Of North Carolina State University (NCSU) Applying The service
